JOSIAH TURNER, Jr., EDITOR.

CONFEDERATE CAMP SCENES IN THE WAR.

A letter in *XIX Century*, published in Charleston, S. C., describes the scenes in the Confederate camps in the early part of the war:

"Until the establishment of the blockade many of the camps were supplied with every luxury that could tempt the palate. Plantations yielded their richest stores of provisions; time honored wine cellars contributed the choicest liquors, while thoughtful mothers and sisters remembered in liberal offering of the "good things from home' their kindness in the camp. If there are two things in the world for which a genuine Southerner has a weakness, they are innumerable drinks and good cigars. While these lasted they were enjoyed; and from *reveille* until the evening 'taps' the gamut of punch and juleps was run incessantly in the hospitable camp of the boys, with a true *de capo* movement. In attempting to evade a sentinel, no man was safe without his fluid countersign.

"Halt! who goes there?" A friend with a bottle was the response.' 'Advance bottle and draw stopper'; whereupon the Rubicon was crossed. Every tent was an open house' to the inmates of every other, and the spirit of 'hail fellow well met, take-a-drink,' everywhere prevailed. On the mess table was the never failing bottle hospitality in the shape of 'plantation bitters' or Bourbon cocktails; under the table a demijohn of old rye' or XX Cognac; within arm's length was the mess chest, rich with mollifying stores of English cheese, lemons, crackers, sardines and condiments; while not unfrequently a miniature vault below the floor of the tent had only to be tapped to disclose a mine of Madeira, sherry and champagne.

"Such were the experiences of the soldier. The hardships amounted to comparatively nothing, the discipline was not severe and the fraternization between the officers and men contributed to make their then life one long holiday. With the closing of the blockade, however, the departure of the troops from the neighborhood of home, and the driving of tent pins in the soil of Virginia, luxuries took their place among the things to be remembered. The army began to experience something of the vicissitudes of war."

BOY'S RIGHTS—BY A BOY.

Talk about the woman and the darkies, and the—the—all the rest of 'em; none of 'em all are half so badly used as boys are. Ask any boy. I know a lot, and can give you all their names. Ask 'em all. They'll tell you to be a boy is to be somebody without a right in the world.

You're to take all the sass that's given to you, and give none back, 'cause you're a boy. You are to pay full fare in the cars and omnibuses, 'cause your're a boy and not a child; and never have a seat, 'cause you're a boy and not a man. Fat lady gets in after it's all full, and looks about her; everybody looks at you. Old gentleman says, "My son," [illegible] Conductor says, "Come, now, you [illegible] You've paid your sixpence. Now [illegible] that is nothing. You've been on you legs, with bundles, all day. Who cares!—you're a boy. Now a horse has such a load given to him as he can carry, and a man won't take any more than he can walk under. Ask boys what grown folks think they can carry. There's no limit to it. Who doesn't known a boy who does a man's work, and does it well, for a tenth of what a man would get for it? Who hasn't read an advertisement for a boy who "writes a good hand, understands accounts, is willing to make himself useful; bonds with his parents; is trustworth; no objection to sitting up all night; not anxious for meals at regular times; no impudence about him. The best recommendations required, and two dollars a week wages."

Ask boys whether old fellows don't make as much fuss about such places, as if they were doing you a favor that would set you up for life.

Who wants a boy anywhere! Your sisters don't in the parlor. Your father don't; he always ask you whether you're not wanted to do something somewhere.—You make your mother's head ache, whenever you come near her. Old ladies snap you up. Young ladies "hate boys." Young men hate you, and give it to you if you tease back. Other fellows—it's because they are aggravated so, I know—always want to fight, if they don't know you; and, when you get a black eye and a torn jacket, you hear of it at home.

You look back and wonder if you ever were that pretty little fellow in petticoats that everybody stuffed with candy; and you wonder whether you'll ever be a man, and be liked by the girls, and treated politely by the other fellows, and paid for your work, and allowed to do as you choose. And you make up your mind every day, not to be boy any longer than you can help it; and hear your grandfather or somebody complaining that there "are no boys now," and wonder if he remembers the life they led, that he don't consider it a subject of rejoicing.

There's only one comfort in it all; boys will grow up, and when they do they generally forget all that they went through in their youth, and make the boys of their day suffer just as they did.

RETURN OF THE CUBAN ARMY.

About six o'clock last evening we met the first detachment of Cuban Patriots that our eyes ever rested upon. They consisted of something like fourteen patriots, ranging from fourteen to twenty years of age, who had been captured, at Eufaula, Ala., by Hon. J. C. Milledge, U. S. District Attorney, Major Watson and U. S. Deputy Marshal Cox. The party left on Saturday morning, for the "Queen of the Antilles," and were found camped out at Franklin, Ala., where they surrendered without firing a gun. The whole party are now carefully imprisoned in the rooms over Hon. W. C. Morrill's office, and will be examined by that officer at 10 o'clock, to day.—Among them is one of the fair sex, dressed in men's clothes, who was as enthusiastic as her companions. The whole party will be dealt with to day in approved form.

Through the courtesy of Hon. J. C. Milledge, we were favored with an interview with the lady recruit, who stated to us that her age is twenty-four years. Her husband was killed at the battle of Gettysburg, when she was left a widow with a little child, now seven years of age. She fell in love with a young man, who met her at her residence in Atlanta, and she agreed to go with him on the Cuban expedition, with the intention of leaving the crowd in Florida, where her relatives reside. At the time Gen. Costa was beating up for recruits in this city, she occupied rooms at Brown's Hotel, where she had her hair cut and assumed the habiliments of the opposite sex. As soon as her sex was discovered, Colonel Milledge gave orders to have her placed in a room by herself, where she now remains under guard. The whole affair will be investigated this morning.—*Mason Journal.*

Improved with BOWELL'S PATENT DOUBLE COGWHEELS, and the PATENT STOP, are how unquestionably far superior to any apparatus for washing clothes ever invented, and will save their cost twice a year, by saving labor and clothes.

Those who have used them give testimony as follows:

"We like our machine much; could not be persuaded to do without it, and with the aid of Doty, we feel that we are masters of the position."—*Rev. L. Scott, Bishop M. E. Church.*

"It is worth one dollar a week in any family."—*N. Y. Tribune.*

"In the laundry of my house there is a perpetual thanksgiving on Mondays for the invention."—*Rev. Theodore L. Cuyler.*

"I heartily commend it to economists of time, money, and contentment."—*Rev. Dr. Bellows.*

"Every week has given it a stronger hold upon the affections of the inmates of the laundry."—*N. Y. Observer.*

"Friend Doty—Your last improvement of your Washing Machine is a complete success. I assure you your machine," after a year's use, is thought more of to-day than ever, and would not be parted with under any circumstances."—*Solon Robinson.*

"Your Washing Machine has been in daily use in our laundry and the housekeeper expresses herself as highly pleased with it. It certainly accomplishes a greater amount of work, with less labor, and does not wear the clothes near so much as the old fashioned wash-board. By using it one hundred is dispensed with."—*Wm. M. Howard, Superintendent of Infant Department of St. Catherine's Nursery, N. Y. City.*

THE SENTINEL.

JOSIAH TURNER, Jr., EDITOR.

MONDAY, SEPTEMBER 13, 1869.

IMPORTANT FIGURES TO THE PEOPLE!

By way of letting the people see what the Legislature did at its late session, we here give a statement of nearly all the appropriations made in the interests of the great "Railroad Ring." Such reckless profligacy on the part of a legislative body has no parallel in ancient or modern times. We ask the people to say what they think of these figures.

The Legislature appropriated money as follows, to wit:

1 For the Chatham R. R. Co.,	$2,000,000
2 For the W. N. C. R. R. Co.,	7,000,000
3 For the W. C. & R. R. R. Co.,	4,000,000
4 For the University R. R. Co.,	900,000
5 For Western R. R. C.,	1,300,000
6 For Oxford Branch of the R. & G. R. R. Co.,	2,000,000
7 For Williamston & Tarboro' R. R. and appendages,	2,700,000
8 For Atlantic Tenn. & Ohio R. R. Co.,	2,000,000
9 For North Western R. R. Co.,	2,500,000
10 Turnpike Road from Monroe to Asheville and elsewhere,	115,000
11 Turnpike Road in Carteret and Craven counties.	5,000
12 R. R. through the counties of Granville, Person, Caswell, Stokes and Surry,	2,000,000
13 Edenton & Norfolk R. R. Co.,	850,000
Aggregate,	$26,970,000

We get these figures from the acts of Assembly, and these are not all. We will add to them hereafter. This does not include the $100,000 Penitentiary swindle. Just think of it, people of North Carolina!—*Twenty six millions, nine hundred and twenty thousand dollars*, appropriated in the interest of the great "*Railroad Ring*," by which "carpet baggers" and a few others are to grow rich, while you groan and toil to pay this astounding sum. The bonds of the State are used, of course, to pay this debt, and they sell for about *thirty-three* cents in gold, so that this sum of bonds will produce, in cash, about $8,900,000. Thus it is expected the honest people of the state are to pay $26,970,000 with interest on this sum, paid semi-annually, for $8,900,000.—Can a people prosper at that rate? O, shame where is thy blush! It is monstrous beyond expression! And yet North Carolinians sit still and let the vandals in power rob them thus! Is there no manhood left in the people? Will they not arrest these infamous villanies? Of this sum of $8,900,000, it is safe to say that a third of it goes to the "Ring." This will reduce the sum realized.

How much of this fraudulent debt the Supreme Court will invalidate we can't now tell. We will give more information in this behalf in a day or two.

Who did this work? "Carpet baggers," "Jo!" men and the "Ring."

PETITION FOR PARDON.

We learn that our "cussis beloved," the Governor, is exceedingly anxious for a copy of our petition for pardon.

It is no fault of ours that he has not a copy. The original was handed to him and he pronounced it a very able paper, but made the following endorsement upon it: "I recommend suspension in this case; it seems to be a bill of indictment against the Democratic party."

The petition is no secret. We read it aloud at a public meeting in this city.—Judge Reade and the Constitutional Convention were at that meeting.

The Governor can't think of our petition with any degree of satisfaction. He acted a false part in regard to it and we caught him in it, and exposed him.

He satisfied us on the first interview that he had recommended our petition. We left his office under that impression.

One who knew his duplicity and falsehood told us there was no truth in Holden; he had not recommended our petition. We disputed strongly with him and said we were sure he had, for though he did not say so directly, he talked so.

If the Governor will apply to us and state "on honor" that he wants a copy of the petition, he shall have it.

MORE STARTLING DEVELOPMENTS.

It will be remembered that the Supreme Court decided that the appriation for the Chatham Railroad Company made by the Legislature after the adoption of the Constitution was *absolutely void*, and that the Treasurer was prohibited by injunction from issuing the bonds of the State in payment of the same, and the Chatham Company was prohibited and enjoined from receiving such bonds. We learn that these bonds *were issued and have been sold or disposed of* in the New York market.

What has Mr. Treasurer Jenkins to say to this? What explanation can he give of the matter?

What do the people think of such a proceeding? The "Ring" went down at the bidding of the Supreme Court! It moves on giant like sweeping all before it. How long, O Lord!

We will tell the people more about this in a day or two.

TEXT BOOKS FOR THE PUBLIC SCHOOLS—ANOTHER PENITENTIARY SWINDLE.

Our readers have noticed, perhaps, the list of Text Books recently adopted by the Board of Education, for the use of the Public Schools. Agents of a number of Publishers have, for weeks past, been canvassing before the Board the merits of the several series of School Books published by the Houses they respectively represented. To the disgust and surprise of intelligent people everywhere, the National Series of Books, *and heretofore almost exclusively in the negro Schools*, was adopted with one or two trivial exceptions. We have come into possession of a few pertinent facts in relation to this latest iniquity of the powers that be. We propose to ventilate a few of these in this issue, leaving extended comment for the future.

The facts, as furnished us, are these:—McGuffey's Readers, the most popular series in this section, were shown to be in at least three fourths of the white schools in the State. They were offered to the Board for introductory purposes at *one half* the retail prices. In case of their adoption the publishers were to DONATE *ten thousand dollars* worth of their books for distribution among the indigent children of the State. The Readers published by A. S. Barnes & Co. and used in scarcely any schools outside of the colored ones, were adopted at *ten per cent.* ADVANCE on their retail prices. The Board agreed then to pay Barnes *ten per cent.* more than was asked by the publishers of McGuffey, and DEPRIVED the State of the benefits of the liberal donation of *ten thousand dollars!*

The Agent of D. Appleton & Co., offered the Board QUACKENBOS' ARITHMETICS, acknowledged by all competent Teachers as vastly superior to Davies, and pronounced by Bankers and business men of this city, in the hearing of members of the Board, to be superior, in their discussion of commercial matters, to any arithmetics they ever saw, at prices LARGELY BELOW those of *Davies*, and yet they adopted *Davies*. We applied to Mr. Connor for the figures, and he handed us the following:

DAVIES' ARITHMETICS.—*(Adopted by the Board.)*

Davies' Primary,	14 cents.
" Elements,	25 "
" Intellectual,	75 "
" Practical,	90 "
QUACKENBOS' ARITHMETICS.—*(As offered to the Board)*	
Quackenbos' Primary,	10 cents.
" Elementary,	20 "
" Mental,	20 "
" Practical,	40 "

It will be seen that Quackenbos would cost the pupil *twenty-two cents* per set less than Davies will cost them. The Board therefore compels the children of the State to pay the publishers of *Davies* Arithmetics for 100,000 sets, just *twenty-two thousand dollars* more than they would have had to pay the Appleton's—had the Board adopted Quackenbos' Arithmetics.

Mr. Connor informs us also that he offered to exchange even a new Quackenbos' Arithmetic for every old and new copy of Davies that might be in the hands of the pupils. The Superintendent, however, scouted that proposition and declared the people did not want to go to the trouble of making an exchange; he, to save North Carolinians from *trouble*, compels their children to use *inferior* books, and to pay for this generous consideration *tens of thousands* of dollars into the pockets of his favorite publisher, which might have been saved them, had he consented to allow their children to extend one hand with an old torn copy of *Davies*, and receive in the other a new and perfect copy of Quackenbos. Singular kindness, Mr. Ashley!

"CARPET-BAG" INDIFFERENCE.

It is amusing to witness the masterly indifference with which the "Carpet-baggers" bear the complaints of the Press and people of this State. Take Gen. Littlefield, the State Printer, for example: The complaints about the delay in publishing the Acts of Assembly have been common, and there has been manifest ground for them. Gen. L. don't say a word, by way of apology or explanation; he don't care a groat for the public or their complaints. Well, all sorts of complaints have been made against him; he says nothing, he don't care, he is in office; Gov. Holden sustains him, at the expense of the State; he don't ask the people, not even the black people, a bit of difference.

The other "carpet-baggers" are the same way; we could name half a dozen similar instances. Let the people complain! They don't care; they are after money, not popular favor. They laugh and mock at you; they are amused at the silly people! They would not hesitate to tell you, they come after money, and to "turn an honest penny," as Dawgone.

What puts these men in power and keeps them there? Gov. Holden and the Radicals! Mark that. Who introduced the "Railroad Ring" into North Carolina? "Carpet-baggers." Who corrupted and bribed the Legislature and other officers of the State? 'Carpet-baggers." Who perpetrated the Penitentiary Swindle, and got $100,000 of State bonds? "Carpet-baggers," helped by degenerate North Carolinians. Who has gotten hundreds of thousands of dollars in State bonds for manipulating "Railroad Ring" bills through the Legislature? Who has corrupted the Radicals of the State, who hold and disgrace the public offices? "Carpet-baggers." Who sustains and encourages these "carpet-baggers"? Gov. Holden and the leading Radical office holders in the State. The "carpet-baggers" drive fine horses and vehicles, wear the finest clothes, sport diamond pins and rings, and build fine houses, and swear, when occasion requires, that they have large sums in State bonds; this they have done time and again. These men had no money when they came here. Where did they get it? They got it at the expense of the downtrodden and oppressed people of North Carolina, by and through the means of the "Ring." Let the people mark that, and the further fact, that Gov. Holden and the native Radical office holders, one and all, sustain and encourage them.

GEN. LAFLIN'S AUTHORITY.

Laflin, while drunk in New York, was heard to say that he had as much influence as if he were Governor.

It looks so indeed. He ordered, or requested, our "cussis beloved" not to issue a writ of election for Pitt county, as "Rich was dead and he (Laflin) was afraid to go to the county," and he alone could control the colored vote. The people of Pitt were unrepresented for two months in the last Legislature because Laflin was afraid to go there. We are glad to see the chicken hearted General has sufficiently recovered of his fears to allow the Governor to issue the writ of election, and the people of Pitt should remember that the election takes place on Thursday, Oct. 7th.

It is to be hoped that the white people of Pitt will not stay at home and send the negroes out to elect a Senator for them. In the late Township election, 124 negroes, at Garlon, voted the Democratic ticket. The negroes have evidently despaired of the 40 acres and the mule. At the next election half the negroes will vote with the persons on whose land they live, whether they be Radical or Conservative. If Pitt should elect another representative from New Hampshire and he should die, the county, and not the State, should pay to send him to his Northern home.

For the Sentinel.

A PUBLIC OUTRAGE.

MR. EDITOR:—Every day brings to the public notice fresh evidence of the corruption, extravagance and incompetency of those who control the State, county and city governments in this State. The precise state of things which now exists, was repeatedly foretold, before the people elected the present officers. They were forewarned, and yet the colored and mean white voters of the State put them in. Now that the taxes are due and the people have to foot the bills, some of them are crying out lustily against these fellows. But let them remember we have only a *taste* yet, of what they intend to do.

I hope you will call attention to the outrageous exhibit of the "Wake County Business," made in the *Standard* of Saturday by W. W. White, Register of Deeds. Was there ever such a shameless exhibit before made in North Carolina? Look at the figures, of the amount paid to the five County Commissioners.

Paid J. P. Andrews, for 151 days at $3,	$453,00
Paid for mileage, 144 miles, 5 cents per mile,	7,20
Paid to Wm. Jenks, for 113 days, at $3,	339,00
Paid for mileage, 4,288 miles, at 5c.	214,40
Paid to C. J. Rogers, for 150 days, at $3,	450,00
Paid for mileage, 4,368 miles, at 5c,	223,40
Paid to Jacob Sorrell, for 146 days, at $3,	447,00
Paid for mileage, 2,980 miles, at 5c,	149,00
Paid to R. W. Wynne, 153 days, at $3,	459,00
Paid for mileage, 3,050 at 5c.	152,00
Total,	$2894.00

The Register neglected to add his own fees and other expenses growing out of this new *regime* of County Commissioners. The full amount of expense to the County all told, will not be short of $4,000 against $500, expenses under our old County Court system.

Besides, the Board deserves to be presented by the next Grand Jury, for paying Mr. J. P. Andrews and C. J. Rogers for mileage, $240, when it is well known that neither were compelled to travel five miles to attend to the business of the Commissioners. Mr. Andrews resides in the city; his office is not two hundred yards from the Court House, where he sleeps and does business, and it is not known that he has been outside of the city limits in a year. Mr. C. J. Rogers is Postmaster of the city, lives here and sleeps within one hundred yards of the Court House. He has a family residing in the country, but he is so seldom missed from the city, that it is not generally known that he visits them more than once a month, and yet he has the audacity and the corruption to charge mileage as if he went to his country home and returned 150 times during the year. Besides this, he was paid for 4,423 miles, when, according to his account, he only traveled 4,268 miles. If he swears he traveled 4,268 miles to attend the Board, how many lies did he tell? Ventilate these fellows, Mr. Editor. They deserve a whip of scorpion's daily.

A TAX PAYER.

AN EIGHT YEARS' PESTILENCE IN INDIA.—*The Friend*, of India, says: "It is almost impossible to conceive anything more deplorable than the state of the fever stricken villages of Hooghly and Burdwan. The magnitude of the calamity and the utter helplessness of the people, while they excite our pity, almost lead us to despair. In the short space of eight years the fever has, it is calculated swept away two-thirds of the inhabitants of the deserted villages. In some places the mortality has been far greater. When the East India railway was opened, Pandooah was a flourishing town, numbering six thousand nine hundred and seventy one souls. In 1862 the fever appeared, and since that time five thousand two hundred and twenty two persons have fallen victims to its attacks, and the miserable remnant wander like spectres round their malaria stricken homes, diseased in every limb, and bearing on their pinched and saddened faces the unmistakable marks of a lingering but early death. The state of the children, who have a lifetime of work before them, is even more deplorable than that of the grown up men. 'I do not think,' writes the sanitary commissioner after visiting these villages, 'that I exaggerate when I say that five-sixths of the children under eight years of age have spleens four times as large as natural. Infants are to be seen like famished objects, bearing the expression of pinched and ghastly old age, their ribs starting outwards, and the usual tumid spleen bulging forward with ominous convexity. They more resemble monstrosities one sees preserved in pathological museums than anything else. An atmosphere of silent despair seems to hang over the worst villages, and no wonder, for everything is rotting—the air, the ground, the vital organs of the people.'"

At a coin sale in Philadelphia, on Tuesday, a New Jersey cent, 1787, realized $21; United States 1798 silver dollar, $10; United States 1804 cent, $12; United States 1799 cent, $5; United States 1797 dime, $12; United States 1845 dime, $4; United States 1793 cent $7.

Of seventy females who went to Oregon from Massachusetts two years ago, sixty-nine, it is said, have married.

Thomas Lee, Esq., son of Judge Lee, of Halifax county, Va., remembers a drought in 1838 in which it did not rain on his father's plantation from June until December.

COMMON SCHOOLS.

Mr. Editor:—Every parent in the community who reads the SENTINEL will thank you for the prompt exposure of the outrages perpetrated on our oppressed and suffering people, in the matter of education. It is enough, one would think, that partizanship should be confined to Railroads, Penitentiaries, and other public measures of State policy, and not suffered to contaminate our youth in the very morning of life. But so it is. The "honorable Board of Education," seem determined to outstrip if possible the "honorable Legislature" itself in the work of destroying all that is sacred and valuable in this venerable commonwealth. Permit me, to add something to your admirable Editorial of Saturday morning, by way of further explaining and exposing the astounding doings of the Board.

The popularity of a school book or perhaps of any book,—is as much a matter of trade, even more,—than gauze for a lady's cap, or color for a dandy's cravat. Either of several methods will *trade* a book through as many editions as a man's conscience is divisible by tens, by fifties, or by hundreds. I once had in my library, a copy of MATHEW CAREY'S "*Olive Branch*," marked 27th edition; yet, though I am not as old as some people amongst us, I have lived to see the whole twenty seven editions, not only disappear, but almost forgotten. Who has a copy now?

1. The methods of which I speak are, *first*, that some extensive publisher takes a book in hand—publishes it as a matter of business—and by previous engagements with his customers throughout the country, absorb several editions of a few hundred copies each. If the Harpers, for instance, have a hundred booksellers to whom they give credit for books bought of them, on condition of their taking a dozen copies each, on an average, of every book they publish, this at once disposes, as to the publisher, of twelve hundred copies—equal, according to a man's fancy, to two, five or ten editions. After this, all is easy—or all is immaterial. The book is able to live on its own strength; or it dies on so many hands, and they the purchasers, that no one feels it much, and the publisher not at all. But this operation puts the authors of books absolutely into the hands of large publishers, and gives to those publishers the predominating weight in regulating the corrupt literature of the country. How far they are safe depositories of either of these important functions—namely, to control the writers and readers, both, I suppose may be fairly inferred from the utterly contemptible, prjune, washy-washy stuff, palmed upon the people for suitable books for primary schools.

2. There is a class of publishers not strong enough to *force* the public taste, and which is, therefore, obliged to content itself with seducing it. The title of a school book is got up; it may be new,—it may be only *renewed*,—or it may be a mere republication. Agents are provided, who enter on the adventure, just as our Northern brethren combine to kill sperm whales, each for such a portion of the oil. The specimen copies are given to Doctors of Divinity, Doctors of Medicine, Doctors of Law, Professors in Colleges, Teachers of Academies and Schools, and to the Pastors of *large* churches, who really are, or are supposed to be, or at least suppose themselves to be, very extensively and favorably known; and for these recommendations are given, printed and classified; by which the throat of the public is widened, greased, and crammed to any extent and with any "villainous compound." The giving of these recommendations is considered so much a matter of course, that agents who solicit them are hardly civil if they are refused,—and the persons who give them, are sometimes not only ignorant of what they affirm, but forget and deny afterwards that they ever affirmed it.

3. Another method:—There is too much reason to know that most unjustifiable means have been for many, many years used before the war, and are *still* resorted to, in order to poison and unsettle, as well as direct and control the public mind, in the Southern States, by agents and adventurers from the North in other modes, as well as through the dissemination of school books *forced* into circulation. To illustrate. Let a Professorship in some Southern College be advertised as vacant, and as open for candidates. There are *three* candidates for the chair. One, an eminent scholar from Oxford, Cambridge or Edinburg, he may be an A. M., another, an A. M. from the University of Virginia or North Carolina, or of South Carolina, the third, a graduate in A. B. from some of the numberless Colleges of New England. Who is the successful candidate? Is it worth while to ask the question? How did he succeed? by merit? Not at all; but by a pocket full of worthless credentials, and a legerdemain as artful and skillful as ever practised by any juggler.

A systematic attempt has been made for generations, to place Eastern men at the head of all the colleges, academies and schools, of the entire remaining portion of the Union, and especially the Southern portion; and by a hocus pocus—somewhat similar to that about their school books, the county has been made to swallow Presidents and Professors as numerous as they were, too generally, worthless.

Are these things to be borne forever?—A decent self respect, a proper love for one's own county; a true independence of character; a just regard for the cause of sound education, and an enlightened zeal for its advancement, alike forbid us, to permit the continuance of this assumed superiority—this systematic dictation, annoyance and deception.

Now, reader, take up the paper of the 10th inst.; see what the "honorable Board" has done; or, rather what the Superintendent of Public Instruction has done! Look at the ten items in a row—do you find any Southern book there? How is this? The Editor of the SENTINEL explained it on Saturday. They have not only left out every Southern book—the series prepared with so much care by the Professors of the University of Va.,—those prepared by Mr. Wiley, late Superintendent, and by Mr. Sterling, of this State, and those prepared by Rev. Dr. Reynolds, of South Carolina—but they have left out the Bible. Did the Board *examine* the books adopted, and sanction their adoption on their ascertained result? or did they leave the matter to a man from Massachusetts, who knows nothing about the wants of the people, and has no regard for their feelings? I am told that the Superintendent is a good sort of a man that means well in what he does, but that he has very little brains. This may be so, or it may not—I do not know. But then I do know that the Governor and Lieutenant Governor of N. C., two members of the Board, are men of brains. Do they wilfully yield their mental superiority to a man who is said to have none? For the honor of the State, for the good of the commonwealth, I pray that they will not give up to the dictation of an entire stranger, but examine these books themselves. If any information is contained in them, it is universally local and of inferior value—confined to New England, and a few other Northern localities, where the books are prepared—where their scenes all lie, and whence they have come, like an inundation, and swept away every Southern book and the Bible itself from the schools of the State.

To *force* these books into the Schools, there seems to have been formed a general conspiracy—"Ring," you call it—a tripartite covenant between the authors, publishers and the Superintendent, to make people pay high in proportion as they are taught nothing. The Bible could be had for a few cents; but these school-books being much "*better to read in*," and much more *profitable* after being read, are made to enrich those who provide them—Superintendent as well as authors and publishers—at the double expense of God's honor, and the people's good. And things have come to such a pass, that I have seriously doubted, whether no education at all is not better than such an one as is likely to be obtained at our primary schools, as the recompense for years of lost time and thousands of wasted wealth.

UNITED STATES SENATORIAL SPECULATIONS.—The Washington correspondent of the Cincinnati *Commercial* thinks that the trades unionists and anti prohibitionists will get control of the Massachusetts Legislature, and elect Col. Greene, Democrat, to the Senate in place of Wilson; that neither Anthony nor Creg'n will be re-elected; that Sidney Clarke is likely to come from Kansas in place of Ross; that Logan has the best chance to succeed Yates; that Judge Moses, of the State Supreme Court, will succeed Robertson, of South Carolina; and that Jesse D. Bright is the coming man from Kentucky. In Tennessee the Legislature will meet October 4, and the Senatorial question be decided at once. The candidates are Andrew Johnson, Emerson Etheridge, D. W. C. Senter, and Neil S. Brown, with the chances for Johnson.

GLASS SPECTACLES,

Superior to any other in use—constructed in accordance with the science and philosophy of nature, in the peculiar form of

A CONCAVE CONVEX ELLIPSIS,

Admirably adapted to the organs of sight, and perfectly natural to the eye, affording altogether the best artificial help to the human vision ever invented. Used only by

MORRIS BERNHARDT,

SPECTACLE & OPTICAL MANUFACTURER.

THE ADVANTAGES of these Spectacles over all others are:

1. **They can be worn with perfect ease** for any length of time at one sitting, giving astonishing clearness of vision, by candle or any other artificial light, comfort to the spectacle-wearer hitherto unknown.

2. **How to select Glasses. It requires** professional guidance even when a good article is offered. Dr. Bernhardt not only has the best Glasses that can be found in the market, but carefully examines the eyes of his patients, and gives indispensable advice as to the proper selection of them.

3. **When the eyes ache or pain through** the action of a bright light, such as is reflected from the snow, sunny weather, white paper, and in reading, writing or sewing, or vivid colored bodies; these lenses, by softening the rays effect a most agreeable sensation and give great relief.

4. **These specimens are scientifically** adjusted to every case of defective sight with unerring accuracy, whether arising from age, strain, over work, or premature decay, by Dr. Bernhardt on a new and exact principle, entirely his own, which has seldom failed to be correct.

5. **After several years of public practice,** adjusting spectacles to patients under every aspect of defective vision, as well as experience in an extensive, long established business in his Optical Stores, both here and in Europe, Dr. Bernhardt considers it a sufficient guarantee of his ability to supply such glasses as are best calculated for the assistance of imperfect sight.

6. **M. Bernhardt, to signalize himself** from the host of pretenders in his profession, with pride submits for inspection, copies of testimonials he has received from medical gentlemen of the most unquestionable respectability and talent in America; also a number of certificates from well known gentlemen of distinction who have used his spectacles—the originals of all which he will be happy to show to those who may request it. The use of any of the following names or certificates hereunto affixed, without an actual possession of the same, would be a forgery, a capital offence, punishable by State imprisonment.

Testimony of Recommendations from Medical Gentlemen, Professors of the highest Opthalmic talent in Raleigh, N. C., and in the Union.

Raleigh, Aug 24, 1869.

I have carefully examined Prof. Bernhardt's Spectacles, and take great pleasure in recommending him to those who, having defective vision, can be made to see more clearly and distinctly by the use of glasses. He has wonderful skill in this respect. The pair he has supplied me with are of Brazilian Pebble, of most superior quality and excellent finish. They enable me to see how to read or write, at the ordinary focal distance, as clearly and distinctly as I did twenty years ago. I very cheerfully bear testimony both to the Professor's skill and to the wonderful properties of his glasses.
CHAS. E. JOHNSON, M. D.

Raleigh, N. C., Aug. 24, 1869.

I take great pleasure in saying that the Glasses I have obtained (and am now using) from Dr. M. Bernhart are to me a source of greater comfort than any I have previously used; my own experience fully sustaining the testimonials of excellence and commendation which he has received from gentlemen of science, and high character, in various parts of our country.
WM. G. HILL, M. D.

Raleigh, N. C., Aug 24, 1869.

I take pleasure in stating that I have examined the glasses of M. Bernhardt, Oculist and Optician, and think they are of the best material, and constructed on scientific principles. I would advise those in need of glasses to call on him.
Very respectfully,
F. J. HAYWOOD, M. D.

Raleigh, Aug. 24, 1869.

Doctor Bernhardt called at my house and exhibited to me his fine assortment of Australian Crystal Glasses, which are of a very superior quality and workmanship. I take pleasure in saying that the glasses I have obtained from Professor Bernhardt are to me a source of greater comfort than any I have previously worn and cheerfully commend them to those who may be in need of glasses.
W. H. McKEE, M. D.

Raleigh, Aug 25, 1869.

After an attentive examination of the various glasses in the possession of Dr. M. Bernhardt, accompanied with his explanation of his mode of preparing and adjusting them, it is with great pleasure I state my belief of his great skill, and of the benefit which those needing glasses must derive from his assistance.
R. S. MASON, D. D.,
Pastor Prot. Episcopal Church.

Raleigh, Aug 25, 1869.

Dr. M. Bernhardt, Oculist and Optician, has fitted me with a pair of Spectacles superior to any article of the kind I ever had before. The material is Australian Crystal, the quality of which renders vision very clear and distinct, and enables me to read and write with as much ease as I did ten or twelve years ago. His assortment of glasses is most complete and the finish apparently perfect. I take great pleasure in recommending him to all who need their sight improved.
DRURY LACY, D. D.,
Late Pres't. of Davidson College, N. C.

Raleigh, Aug. 26, 1869.

It gives me pleasure to bear witness to the extraordinary value and excellence of the glasses prepared and furnished by Prof. Bernhardt. To those who need artificial aid for their vision he will be of the highest service.

Pastor of the Presbyterian Church.

I have examined a large number of the glasses of Prof. M. Bernhardt, and with pleasure certify to their superior excellence. I wear a pair of them and see as perfectly as I could in my youth. They are the best I ever used, and I therefore heartily recommend him to the patronage of the public.

Columbia, June 19th, 1866.

Sir: I have made a full and satisfactory test of the Spectacles procured from you, and I have the pleasure to say that the glasses are better adapted to my eyes than any I have ever used. The facility with which you fitted the glasses to my eyes, furnished me conclusive evidence of your scientific skill in optics and your thorough experience as an Oculist.
Your attainments in your profession entitle you to the confidence, patronage and gratitude of the public. I have the honor to be,
Very respectfully yours,

Wilmington, March 31, 1866.

I have examined a number of Professor Bernhardt's Glasses and am now using a pair of them, and take pleasure in testifying that they enable me to see better than any others that I have used, while in his collection there seem to be some adapted to remedy any kind of defect in vision.
THOMAS ATKINSON,
Bishop of North Carolina.

Nashville, April 27, 1867.

The difference between Dr. Bernhardt and most Opticians is, according to my observation, that while they pretend to more than they know, he knows more of his business than he professes.

N. C. R. AND P. ESTATE AGENCY.—We have been requested to announce, that there will be a meeting of the stockholders of the North Carolina Real and Personal Estate Agency, at their office in this city, on Thursday, the 16th inst. All the members of the company are earnestly requested to attend, as business of the greatest importance will be transacted.

WHAT'S THE MATTER, EUSEBIUS?—From the way Dr. Wes. mixes up his locals, one would suppose that Littlefield had moved his Bar back from Florida, and opened it in one of the spare rooms of the new *Standard* office. He speaks of the new Cemetery as "a fitting resting place for *those of* us who must, in time, *pay the debt of nature.*" Isn't it likely we shall *all* have to pay it in time, Wes.? A MEETING of "Oak City Council," Friends of Temperance, will be held in their Hall at 7½ o'clock this evening. A full attendance is desired.

Major Engelhard, of the Wilmington *Journal*, with his family, arrived in the city on Saturday, from the Catawba Springs, and are stopping at the Yarborough House. The Major paid us a call on Saturday, and appeared to be enjoying excellent health.

LEGAL MATTERS.—The case of the State and James Jones, colored, *vs.* E. S. Wallace, peace warrant, postponed from Thursday, was up before His Worship, J. P. Adams, J. P., on Saturday, again.

George Snow, Esq., appeared for the State, and D. G. Fowle, Esq., for the defence.

After hearing the witnesses, and the argument of counsel, Wallace was bound in a bond of $200, to keep the peace toward complainant.

We copy the following from the New York *World*, concerning the political Conventions of Mississippi and Wisconsin:

JACKSON, MISS., September 8.—The National Union Republican Convention assembled to-day at noon. It is the largest meeting of the kind ever held in this State. Three hundred delegates are present, seventy five of whom are colored. Nearly all the counties are represented. Judge Speed, of Vicksburg, was chosen President, and the following resolutions were unanimously adopted.

1. We reaffirm the principles enunciated in the Constitution of the 23d June. 2. That in addition thereto we announce ourselves in favor of a liberal system of free schools, and of such equitable distribution of the public school funds as may secure the largest degree of good feeling among all classes of citizens. 3. That we cordially invite the immigration of capitalists and manufacturers into our State, and pledge ourselves to such legislation as shall most effectually aid and foster all the industrial pursuits of our State and thoroughly develop all its resources.

Judge Lewis Dent was unanimously nominated for Governor, Judge Jeffords for Lieutenant Governor, J. L. Wofford for Congress in the first district, Judge William Kellogg in the third, and Judge Joseph W. Field in the fourth.

The Convention adjourned till 9 o'clock to-morrow morning.

MILWAUKIE, WIS., Sept. 8.—The Democratic State Convention met here to-day and made the following nominations:

Governor—Colonel C. D. Robinson, of Green Bay.

Secretary of State—A. G. Cook, of Columbus.

Treasurer—John Block, of Milwaukie.

Attorney General—S. W. Perry, of Madison.

State Prison Inspector—Cave Berdeau.

Superintendent of Public Instruction—Peter I. Gannon.

Among the resolutions adopted, the following is the most noticeable:

Resolved, That the Democratic party of Wisconsin rejoice in the extinction of slavery, in the prompt and general acquiescence of the Southern people in the results of the war, in every well-directed effort for the enlightenment and elevation of oppressed humanity at home and abroad, and in every measure compatible with good government and public order, to broaden the basis of suffrage and extend the blessings of free institutions to all classes of the people; and that in strict fidelity to this spirit of progress and patriotism, we deplore the many inexcusable infringements of our national Congress upon the liberty of the citizen, and the freedom of the ballot; its failure to recognize the equitable right of foreign born residents to an early participation in the privileges of the ballot-box on terms liberal as those prescribed by the Democratic Constitution of Wisconsin; its constant effort to burden labor and encourage monopoly; and its covert purpose to centralize and enlarge the powers of the Federal government.

Resolutions were also adopted favoring taxation of national bonds.

HARNETT COUNTY, Sept. 16, 1869.

Mr. Editor:—I am a farmer and wagoner, struggling hard to make an honest living and dislike to be robbed, even when it is done under authority of law. On Thursday last I was in your city; my mules attempted to go in at Mr. Adam's, where I had been in the habit of feeding them. I was not able to turn them until I jumped from the saddle and struck the leader over the head with my whip, and put him in Fayetteville Street. I then jumped upon the saddle mule again, I gave my mules a crack with the whip and they went off in a hurry, the lead mules in a gallop, and the hind mules in a trot, I was not able to hold them for a time but finally brought them to a walk, when a police officer arrested me and I was fined five dollars and cost $2,50, making $7,50 without knowing there was a law against fast driving in the city. If I had known it, it would have been all the same, for I could not control the mules.

I am told that your carpet-bag Sheriff drives through your Streets every day, at a more rapid rate than I did. I was told, also, after I had been robbed of $7,50, that the city harlots run races on horse back through Fayetteville Street, with no notice of the law against it.

I have made this statement, Mr. Editor, for the benefit of other wagoners, who may visit the carpet-bag, scallawag ridden city of Raleigh.

Respectfully yours,
NEILL A. SMITH.

GOOD SHINGLES.

MR. EDITOR:—The spirit of building and improvement in the city will be greatly promoted by getting good bricks, good lumber, good shingles, &c. I have just seen a lot of shingles offered for sale by Messrs. W. H. Jones & Co., which excel anything I have seen of the kind.

They are cypress, straight, sound, well dressed and very durable. They are large and will take fewer to cover. I consider a roof of such shingles is worth double one with the shingles in ordinary use. Builders ought to examine them. They are manufactured by J. A. P. Burnett Esq., in Edgecombe. W.

CENSUS OF CHARLESTON.—Charleston has recently had its census taken. The *Courier* gives the following interesting statistics from the return of the census taker:

"The aggregate number of persons of all ages, sexes and color in the city proper is 44,952. Of this number there are 20,166 whites and 24,786 colored, being an excess of 4,620 colored persons. There are 20,176 males and 24,776 females, being an excess of 4,600 females. Out of the 20,177 white and colored males one-third, say 6,625, are voters. The excess of colored males over the white males is 934. Placing the average number of voters at one-third of the number of males, we have 3,220 white and 3,508 colored voters, leaving the colored voting majority in the city at only 285. It is true that in an election this majority will, of course, be increased by the James Island importations; but it can even in that event be overcome, because the number of negro children is greater in proportion than the number of whites, and hence the computation of the negro voters is in excess of the actual number. The aggregate population in the Parishes of St. Philip's and St. Michael's amount to 45,712.

"Since the year 1800 the population of the city proper as appeared by the United States census, numbered as follows: In 1800, 18,711; in 1810, 21,711; in 1820, 24,780; in 1830, 30,289; in 1840, 29261; in 1850, 42,985 (of whom 14,692 were slaves;) in 1860, 40,522.

"It will be perceived, then, that the present population is an increase upon the last census, and in excess of the population of the city at any other period of time."

FROM WASINGTON.

WASHINGTON, Sept. 11.—The London correspondent of the *Standard* makes Minister McMahon say of Lopez: "He is intelligent, polished and courageous; and conversant with European manners and diplomacy. Only two or three of the English desire to leave Paraguay, but they are too timid to express the wish."

A letter from Paris foreshadows the early abdication of the Emperor. The Emperor's relapse is probable. Many think the majority of the Prince Imperial will be proclaimed next birth-day.

Large numbers of beef cattle from Western Virginia and East Tennessee, are passing northward in search of pasture, which the drouth has ruined in those states.

The rumor of the probable extension of Serrano's regency gains ground. All parties in Spain are favorable to the proposition.

The floating church at the foot of Pike street, on East river, New York, is rapidly approaching completion, and will doubtless be consecrated by the 1st of November. It is of handsome Gothic design, proportioned to its peculiar situation. The walls are low, but the roof is of a very deep pitch, and as the side-timbers rise in a grand sweep to the vault, the interior effect is very fine. There is to be a handsome-painted window above the Holy Table, and the whole of the interior-beams and panels are to be decorated with color. The building will seat about five hundred, and its cost, including the barge on which it is erected, will be thirty thousand dollars. It will bear the name of The Church of Our Savior, and will be (as the old structure was) mainly attended by sea-faring men and their families.

THE UTLEY
COTTON PRESS.

A NEW combination of power, whereby all friction is overcome. The simplicity, economy and durability of this PRESS astonishes all who see it, and the more so that a power so simple should so long have been unappropriated. With this Press, two men can do all the packing or pressing of a 500 pound bale inside of eight minutes: and it can be readily taken down and transported, as it is simple and light. We can supply these Presses cheaper than any yet offered to the Planter. Will send circulars to any desiring and we would advise all persons wanting presses to withhold buying until they examine this.

THE PRESSES are now being manufactured at the SASH AND BLIND FACTORY OF THOS H. BRIGGS. All are assured that as between this and any other there is no argument as to its merits over all others. With the trunk any ordinary workman can put them up. The patentee is here for a few days, and will take pleasure in explaining its merits.

The Company has been well tested throughout the State, as to its promptness in paying her losses, reliability, &c.

DIVIDENDS PAID AT THE END OF THE FIRST YEAR, AND ANNUALLY THEREAFTER.

Its ratio of expense to income is extremely low. This may be seen by reference to the Official Reports for 1868. For example:

THE ÆTNA,	13,41

It has an IMPORTANT NEW FEATURE that has been copy-righted. According to this plan the rates are MUCH LOWER than in any other Company in the world.

Its ratio of Mortality is low. Its rates are very low. Its expenses are very low. Its dividends are large.

It insured more lives in the City of New York in 1868, than any other Company, except one. It issued more Policies in the United States than any other save one. It insured more lives in Canada than any other Company, British or American.

See what the HIGHEST INSURANCE AUTHORITY in this country says. In the June number of the *Insurance Times*, of New York, the following opinion was expressed:

"If there is any great benefit in mutual association, any great advantage to be derived from scientific organization and a chartered source, tending to mitigate the sufferings, lessen the privations, and add to the peace, security, and happiness of humanity, we are prepared to show that these blessings flow, in all their fullness and purity, from this excellent, powerful, and flourishing Company, the ÆTNA LIFE, of Hartford."

"No institution has brought more prompt, full, and grateful relief to the hearth of the bereaved and desolate, and none has been more uniformly distinguished for the enterprise, wisdom, and equitable liberality with which it has fulfilled the purposes of its formation."

"Its success has been almost unbounded and beyond all precedent. Eight years ago, in 1861, it issued only 589 policies, received as income of seventy-eight thousand dollars, and possessed net assets summing up to something over two hundred and eighty-one thousand dollars; but last year, 1868, it granted 13,307 new policies, more than any other Company except the Mutual Life; received an income exceeding six million dollars and had amassed solid, securely and profitably invested nett assets amounting to over Two Million Three Hundred and Fifty Thousand Dollars. And this wonderful ratio of growth has been sustained in 1869."

GOSSIP ABOUT NEWSPAPERS.

A curious set of rules established in India for the conduct of newspapers at the beginning of this century was unearthed lately. By these rules a paper could not be issued on Sunday, nor indeed at all, unless it had previously been scrutinized by a secretary of government or some person authorized by him. Every printer of a newspaper was obliged to give his name at the foot of the sheet, and every proprietor or editor was obliged to register his name and residence. Immediate deportation to Europe was the penalty for infringing any of these conditions. The duty of the secretary to government, when the paper was submitted to him, was to cut out all remarks on the company's servants, the state of its revenues or finances, or the public credit; to prevent the publication of all intelligence about the movement of troops or ships, or the destination of stores or specie, whether the property of the company or of private persons; to disallow all libellous or scandalous stories, and all statements which might imply the probability of war or peace between the company and any native state, or which might excite alarm or commotion within the company's territories. The republication, too, of any passage from a European journal which affect the influence or credit of the British in the East was strictly prohibited.

The *Pall Mall Gazette* says:

"There is some talk in Paris of a new journal to be started there very soon, which is to eclipse all others, and which is to have M. Prevost Paradol for its chief editor. A new journal is much wanted, though we are not prepared to say that the promoters of the new venture think as we do. We look at French newspapers from our English point of view, and feel keenly that, however good they may be as organs of opinion, they are very weak indeed as collectors of news. The news is feebly put together, and is strangely interwined with conjecture, with fanciful digressions, and sometimes with unseemly suggestions. But, worst of all, it is behindhand. A French reporter is a snail. We will suppose that some great event happens to-day. In London we are quite certain that there will be a most ample account of it in all the papers of to-morrow morning. In Paris the papers of to-morrow morning will be able to furnish a report of no more than a few lines, scarcely so complete as is London we might find in a late edition of an evening paper. The full report will not appear until the following evening, and sometimes is delayed to the morning of the second day after the event. Again and again, we have known remarkable events happen in Paris on a Sunday—the great day—and the full report of them has not appeared until Tuesday morning, at the same time they appeared in London, and that, too with much more of accurate detail.

"May we venture to suggest also that some Parisian journals are a little too much devoted to private interests. The readers of the *Figaro*, one of the most popular and best written of the Paris journals, had last week to contemplate a singular phenomenon. The editor in chief, M. H. de Villemessant, was bold enough to give the place of honor to an article of his own entitled '*Une Maison de Feux a vendre.*' It was a magnificent account of a house, with fine grounds, of his own, which he wanted to sell for £14,000, and the folly to which the title of the article referred was that of successive proprietors who had wasted whole fortunes in making this mansion, its park, its gardens and its fields a perfect paradise, with every comfort and luxury which ingenuity could devise and money obtain.—How much astonished we should all be if we were to awake some fine morning to discover that the editor of the *Times* had devoted his first leader to a glowing description of his country seat, which he wished to sell for £14,000 because he was beat on the purchase of a mansion at Hyde Park corner! M. de Villemessant announces that he is on the point of purchasing a residence in the Bois de Boulogne, and that is the sole reason of his wishing to part with a perfect paradise in the country. The Parisians are amused. They take an interest in the private affairs of M. de Villemessant, and they do not see how journalism is degraded by such a system of advertising."

SCRIBBLING IN PRAYER-BOOKS.

A casual peep into the Prayer-books which lie scattered about in the pews of some of our fashionable churches reveals the fact that what has hitherto been looked upon only as a means of communicating with God may be made the channel for at least four things which have a very remote connection with religion, viz: criticism, love-making, gossip and poetry. Under the first heading: "Who is that gentleman that has just come in with Annie Brown?" "I don't know, but she looks like a perfect fright in that shepherdess hat, with that great bunch of curls underneath five shades lighter than her own hair;" or this, in a fair, clerkly hand: "I wonder whether that old gentleman in the gown is going to preach all night?" (N. B.—This reverent remark has reference, of course, to the officiating clergyman.) Under the second heading: "Does your ma know you are out?" "No, but my sweetness does!" "You needn't go to-night when pa shuts up the house; he always does that at nine o'clock," "you bet!" (This touching conversation is carried on through the medium of a lead pencil, and the replies are written in a bold, masculine hand, with many flourishes.) Under the third heading, "Just look at Mary in a pink silk! She is thirty if she is a day, and will be wearing bibs next." "she has turned her dress and dyed it." (These remarks are made in a fine, pointed handwriting, which betrays the writer's sex.) Under the fourth heading we find various fragmentary verses, which were certainly not taken from Watts' Hymns, such as, "If you love me as I love you, etc;" or, "Perdition catch my soul but I do love thee;" or, "Would thou wert mine own, love." If people will be sacrilegious, why not attach slates to every pew and pay the sexton a small fee to dampen the sponge every Sunday just before service begins! Seriously speaking, it is time for such evidences of irreverence and ill-breeding to cease.

Koskoo!

THE GREAT REPUTATION

Which KOSKOO has attained in all parts of the Country

AS A GREAT AND GOOD MEDICINE,

has induced Dr. LAWRENCE to ENLARGE HIS LABORATORY and FACILITIES for MANUFACTURING, so as to be enabled to supply the extraordinary demand for it.

THE LARGE NUMBER OF TESTIMONIALS which are constantly being received from Physicians, and persons WHO HAVE BEEN CURED by its use, is CONCLUSIVE PROOF of its REMARKABLE VALUE.

As a BLOOD PURIFIER it HAS NO EQUAL,

BEING POSITIVELY THE

Most Powerful Vegetable Alterative

YET DISCOVERED!

DISEASES OF THE BLOOD.

"The life of the flesh is in the Blood," is a Scriptural maxim that science proves to be true. The people talk of bad blood, as the cause of many diseases, and like many popular opinions, this of bad blood is founded in truth. To say nothing of those humors that are hereditary, we can easily see how the Blood may become bad from imperfect Digestion or failure of excretion, and how this may influence the process of Nutrition, and thus influence all the functional activities of the body.

The symptoms of bad blood are usually quite plain—bad Digestion—causes imperfect nutrition, and consequently the circulation is feeble, the soft tissues lose their tone and elasticity, and the tongue becomes pale, broad, and frequently covered with a pasty, white coat. This condition soon shows itself in roughness of the skin, then in ERUPTIVE and ULCERATIVE diseases, and when long continued, results in serious lesions of the Brain, Liver, Lungs, or urinary apparatus. Much, very much, suffering is caused by impure blood. It is estimated by some that one-fifth of the human family are affected with scrofula in some form.

Persons suffering from any bad humor are very liable to have it settle on the Lungs or some other vital organ. The only safe rule is to remove the Blood poison at once, before it settles itself upon some vital point.

When the Blood is pure, you are not so liable to any disease. Many impurities of the Blood arise from impure diseases of large cities. Eradicate every impurity from the fountain of life, and good spirits, fair skin and vital strength will return to you.

KOSKOO!

AS A

LIVER INVIGORATOR!

STANDS UNRIVALLED.

BEING THE ONLY KNOWN MEDICINE that EFFICIENTLY *stimulates* and CORRECTS the *hepatic secretions* and functional DERANGEMENTS of the LIVER, without debilitating the system. While it acts FREELY upon the Liver instead of COPIOUS PURGING, it gradually changes the discharges to a PERFECTLY NATURAL STATE.

SYMPTOMS OF LIVER COMPLAINT AND OF SOME OF THOSE DISEASES PRODUCED BY IT.

A sallow or yellow color of the skin, or yellowish-brown spots on the face and other parts of the body; Dullness and drowsiness, sometimes headache; bitter or bad taste in the mouth, internal heat; in many cases a dry, teasing cough; unsteady appetite; sometimes sour stomach, with a raising of the food; a bloated or full feeling about the stomach and sides; aggravating pains in the sides, back, or breast, and about the shoulders; constipation of the bowels; piles, flatulence, coldness of the extremities, &c.

KOSKOO!

Is a remedy of WONDERFUL EFFICACY in the cure of diseases of the KIDNEYS and BLADDER. In these affections it is as near A SPECIFIC as ANY remedy can be. It does its work KINDLY, SILENTLY, and SURELY. The RELIEF which it affords is both CERTAIN and PERCEPTIBLE.

DISEASES OF THE KIDNEYS AND BLADDER.

Persons unacquainted with the structure and functions of the Kidneys cannot estimate the IMPORTANCE of their healthy action.

Regular and sufficient action of the Kidneys is as important, nay, even more so, than regularity of the bowels. The Kidneys remove from the Blood those effete matters which, if permitted to remain, would speedily destroy life. A total suspension of the urinary discharges will occasion death from thirty-six to forty-eight hours.

When the Urine is voided in small quantities at the time, or when there is a disposition to Urinate more frequently than natural, or when the Urine is high colored or scalding, with weakness in the small of the back, it should not be trifled with or delayed, but Koskoo should be taken at once to remedy the difficulty, before a lesion of the organs takes place. Most of the diseases of the Bladder originate from those of the Kidneys, the urine being imperfectly secreted in kidneys, prove irritating to the Bladder and Urinary passages. When we recollect that medicine never reaches the Kidneys except through the general circulation of the Blood, we see how necessary it is to keep the Fountain of Life Pure.

KOSKOO!

MEETS WITH GREAT SUCCESS IN THE CURE OF

Diseases of the Nervous System.

Almost nine-tenths of our people suffer from nervous exhaustion, and are, therefore, liable to its concomitant evils of mental depression, confused ideas, softening of the brain, insanity, and complete breaking down of the general health. Thousands are suffering to-day with broken-down nervous systems, and, unfortunately, tobacco, alcohol, late hours, over-work, [mental and physical] are causing diseases of the nervous system to increase at a fearful ratio.

The symptoms to which diseases of the nervous system give rise, may be stated as follows. A dull, heavy feeling in the head, sometimes more or less severe pain or headache; Periodical headache, Dizziness, Noises or Ringing in the Head; Confusion of Ideas; Temporary Loss of memory; Dejection of Spirits; Starting during sleep; Bad Dreams; Hesitation in answering questions; Dulness of Hearing; Twitching of the Face and Arms, &c., which, if not promptly treated, lead to Paralysis, Delirium, Insanity, Impotency, Apoplexy, &c., &c.

CONCLUSION.

Suffering reader, do not think that because you have tried other remedies, you cannot be cured, but recollect that God, in His Providence, has not afflicted His children with pain and disease, without at the same time giving them something in the Great Garden of Nature that will cure them.

Have no hesitation in writing to me, and stating your case in full, and I will answer you promptly.
